Subje Termination of subK Chuan Wang  
ct

Sandra,

Thank you for breaking away from your conference call to speak with me about Chuan Wang.

As we discussed, after many voice and email conversations with Chuan Wang he continues to refuse to submit his New Hire documents to Artech. As a result we have no option but to terminate Chuan Wang as an Artech employee effective today 3/28/08.

To insure a safe exit from the Blue Network, I request you advise when his account has been closed at which time I will notify him of the termination.

Please advise of the IBM assets in his possession and where you would like them returned.

I have already contacted my recruiting team to source backfill candidates immediately. I will submit them to you via email while we await the CSA.

Regards,

Anthony
